Signed a supply contract for Romanian Market for 4 MWp Solar Park

Frosinone, May 27th, 2013 - Enertronica S.p.A. announces that it has signed a contract for the supply of components destined for the Romanian market for the construction of two solar parks with a total power of 4 MWp. The plant owner is a primary Italian Company active in green sector. The contract includes the supply of PV Mounting Systems, Inverters and other electrical components which have to be delivered within June 2013. The total value of the supply contract is approximately 1MEuro.

Vito Nardi, Managing Director of Enertronica commented: *"the supply agreement signed for Romania is a small but important step in the internationalization process of the Enertronica. The company, while believing in important business opportunities in Italy, has long since decided to focus on foreign markets. The contract just signed is evidence of the efforts made in this direction."*

This press release is available on the website of the Italian Stock Exchange and on the Company website www.enertronica.it.

Enertronica S.p.a. is a company founded in 2005, active in the field of renewable energy and energy saving (ESCo).
